Re: Liberty Media Corporation
Form 10-K for Fiscal Year Ended December 31, 2016
Filed February 28, 2017
File No. 001-35707

information or technology you have provided to Sudan or Syria, directly or indirectly, and any agreements, commercial arrangements, or other contacts you have had with the governments of those countries or entities they control.

2. Please discuss the materiality of any contacts with Sudan and Syria you describe in response to the comment above, and whether those contacts constitute a material investment risk for your security holders. You should address materiality in quantitative terms, including the approximate dollar amounts of any associated revenues, assets, and liabilities for the last three fiscal years and the subsequent interim period. Also, address materiality in terms of qualitative factors that a reasonable investor would deem important in making an investment decision, including the potential impact of corporate activities upon a company's reputation and share value. Various state and municipal governments, universities, and other investors have proposed or adopted divestment or similar initiatives regarding investment in companies that do business with U.S.-designated state sponsors of terrorism. You should address the potential impact of the investor sentiment evidenced by such actions directed toward companies that have operations associated with Sudan and Syria.

Item 1. Business, page I-1

3. Expand your discussion of tracking stocks to explain the likely management response if SiriusXM was to become insolvent or file for bankruptcy. For example, clarify whether management would exchange another Liberty Media group tracking stock for the Liberty SiriusXM Group tracking stock?

Item 1A. Risk Factor, page 1-24

4. Include a new risk factor explaining the possibility that you may split off portions of your business underlying each of your tracking stocks in a disparate manner thereby leaving some shareholders with only an interest in the split-off company and the remaining shareholders with the remaining assets. Discuss whether the Company would have the discretion to alter the asset and liability composition of each of your groups currently underlying tracking stocks in such a transaction. Indicate whether shareholder approval would be required for any such transaction.

Possible market confusion may result from holders..attributed to one of our tracking stocks, page 1-48
