## NON-GAAP FINANCIAL MEASURES

### SCHEDULE 1

This press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for the Liberty SiriusXM Group, the Braves Group and the Formula One Group, together with reconciliations to operating income, as determined under GAAP. Liberty Media defines adjusted OIBDA as revenue less operating expenses, and selling, general and administrative expenses, excluding all stock based compensation, and excludes from that definition depreciation and amortization, restructuring and impairment charges and separately reported legal settlements that are included in the measurement of operating income pursuant to GAAP.

---

SCHEDULE 2

This press release also includes a presentation of adjusted EBITDA of SiriusXM, which is a non-GAAP financial measure used by SiriusXM, together with a reconciliation to SiriusXM's stand-alone net income, as determined under GAAP. SiriusXM defines adjusted EBITDA as follows: EBITDA is defined as net income before interest expense, income tax expense and depreciation and amortization. SiriusXM adjusts EBITDA to exclude the impact of other income as well as certain other charges discussed below. Adjusted EBITDA is one of the primary Non-GAAP financial measures SiriusXM uses to (i) evaluate the performance of its on-going core operating results period over period, (ii) base its internal budgets and (iii) compensate management. Adjusted EBITDA is a Non-GAAP financial measure that excludes (if applicable): (i) certain adjustments as a result of the purchase price accounting for the merger of Sirius and XM, (ii) share-based payment expense and (iii) other significant operating expense (income) that do not relate to the on-going performance of SiriusXM's business. SiriusXM believes adjusted EBITDA is a useful measure of the underlying trend of its operating performance, which provides useful information about its business apart from the costs associated with its capital structure.
